

VEG HUNTERS CHAMPIONS

How to Support the Sweetcorn and make your school want to give it a try:

Come up with a fun name or slogan in an Eat Them to Defeat Them style

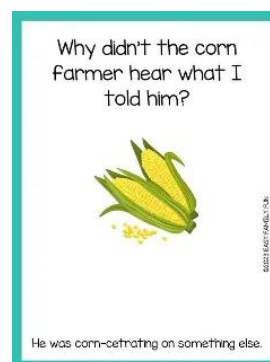

We're coming to eat you sweetcorn

Find some sweetcorn jokes or write your own!

Why shouldn't you tell secrets on a farm?

Because the corn have ears!

Amaze them with these fun facts or do some research yourself

- **Sweetcorn is actually a grass!** It's related to wheat and rice.
- **Each sweetcorn cob has lots of kernels** — usually an **even number** like 400 or more.
- **Every kernel is a seed.** That means one cob could grow hundreds of new plants!
- **Sweetcorn grows tall**, sometimes taller than a grown-up.
- **Corn doesn't grow wild.** People have been growing it for thousands of years.
- **Sweetcorn can be yellow, white, or even rainbow colours!**
- Corn kernels can **pop** because of water trapped inside — hello, popcorn!
- **Animals love sweetcorn too**, including birds and squirrels.
- **Sweetcorn tastes sweeter when it's fresh**, because the sugar slowly turns into starch after picking.
